

Frank

School Principal

The education system needs to be revolutionated with the new technologies.

ACTIVITIES

Frank is 38 years old and lives in Turin. He has a degree in computer science and since his graduation he has worked as teacher in the around of Turin. After four years he has become the school principal. He has a lot of interest in web applications, and pays close attention to every aspect of technologies.

GOALS AND DESIRES

Frank is a methodic person and would like to bring his precision in every portion of his life included work. He thinks that the nowadays, schools waste a lot of time in bureaucratic stuffs, without obtaining good results.

DIGITAL TOOLS

NEEDS

- Frank would like to have a system able to simplify his work routine.
- Frank would like to have a tool able to replace all the papers used for bureaucratic stuffs in the school administration.

OBSTACLES AND FRUSTRATIONS

- Frank had some trouble in defining fair compositions of the classes in the past years, and some parents complained about it.
- In Frank's school there is not a single place where all the papers are stored, but there are several storage areas and this makes the administration really slow and inefficient.
